NAD

Introduction

These release notes are for the NAD C368 C388 Stereo Receiver Driver. This driver supports serial and IP control. It can be used to control the following products:

- NAD C368 and C388.

Dependencies

- Requires Control4 OS 2.10.2 or higher.

Change Log

Version 3 (released May 9, 2019):

- Code optimization.

Version 2 (released August 29, 2018):

- Updated audio/video input and output mapping.
- Removed the MDC card configuration from properties. Refer to documentation in the driver package for more info.
- Added locale support for volume control.

Version 1 (released July 11, 2018):

- Initial public release.
- Supports the following functions:
    - Power off, power on, power query
    - Mute, unmute, mute query
    - Volume up, volume down, volume set, volume query
    - Speaker A on/off, speaker B on/off, speaker query
    - Source selection

Notes

- Serial control is 115200 baud / 8 data bits / 1 stop bits / no parity / no flow control.
