

Introduction

These release notes are for the NAD C427 Stereo AM FM Tuner driver. This driver supports serial control.

Dependencies

- Requires ELAN firmware 8.3.765.0 or higher.

Change Log

Version 1.1.0 (released January 30, 2020):

- Improved settings updates when driver is started.

Version 1.0.0 (released May 8, 2019):

- Initial public release.
- Supports the following functions:
 - Tune up and down
 - Tuner band
 - Preset up and down
 - RDS station name and text display query

Notes

- Serial control is 115200 baud / 8 data bits / 1 stop bits / no parity / no flow control.
- The C427 is treated as a source within ELAN, and is usually used with a zone controller driver.
- You must add the C427 as a “New Generic Media Source”, not as a “New Tuner”.
